Thank you! I have the original packet from Annie. Could you please email the new packet to Carolyn Hely also. She is my ADA friend who is mailing it out to the defense attorneys for me because I will be away. I should have email access, but incase I am unable to forward the email to ADA Hely, it would be a great help if you could cc her. You are the best!

Hi Debi, I'm hoping to have the packet ready by Friday or Monday. I will email it to you directly. Do you need or already have the original packet when Annie was the custodial chemist? I'm not sure if I need to send my packet alone or if you need everything from the beginning.

Thanks,

BUDDY!!!

I have been informed that you are the Chemist who is rush re-testing the cocaine for my Norfolk County Superior Court TRIAL beginning on February 22, 2012. Det. Brian Coen of the Quincy Police Department dropped off the drugs at your lab on or about Monday February 6, 2012. I will need the lab packet emailed to me (if possible). Otherwise, I will need the lab packet mailed to my office at Debi Payton, ADA -Norfolk County District Attorney's Office, 45 Shawmut Road, Canton, MA 02021. I must turn over this necessary discovery to the defense ASAP in order to comply with Rule 14. I have been informed that Ms. O'Brien will contact Det. Brian Coen at cell # [REDACTED] upon completion of testing so that he can return the drugs to the QPD drug locker and get the drug certs to my office. Det. Brian Coen will make sure that a copy of the drug cert is faxed to me at my office. I will be out of the country from the 10<sup>th</sup> to the 17<sup>th</sup> and will coordinate with one of my colleagues to mail out the lab packet to the defense upon its arrival. I CAN be reached by email while out of the country and I am cell phone available until Friday at 7a.m.

Thank you for your diligence as it is much appreciated. You have previously been summonsed and I (per usual) will keep you posted as the trial progresses. I will also contact you on the 22<sup>nd</sup> so you know that the trial is in-fact underway.

Thanks again,

Debi Payton

Hi there,

I think there might be some confusion here as I am not chemist who is performing the analysis. I will however be the person who notifies Brian to come and pick it up. The chemist on this case is now Peter Piro. He will be the only analyst for this sample.

Please feel free to reach out to Peter Piro (617) 983-6634 or myself if you have any questions.

Enjoy your trip out of the country!
